When Wheeler plays **Wild Nature's Release** Alexis realises, "This monkey is getting better!"

Elemental Hero Clayman is just what Jaden needs to win and to, "get Jasmine back!"

S

WHEELER ESCAPES

Hidden away on Academy island is a laboratory where scientists are working on a top secret project. But there's a crisis! A voice shouts over the loud speakers, "Code red! I repeat, code red! Go, go, go! Secure the perimeter."

Monkey not here!

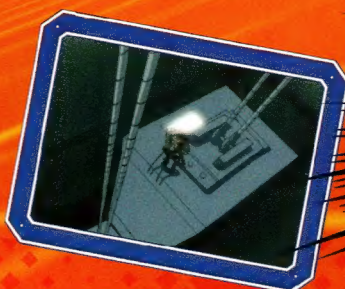

The alert is over the lab's prize specimen getting free. The scientists are determined to capture him, even if it means using force: "The specimen can't escape! No matter what!" Who is causing all the alarm? It's Wheeler, a special trained Duellist-monkey!

Monkey business!

This Duelling primate is way too clever for the guards. He avoids them and then, just as it looks as if he's going to get caught, he leapfrogs over a guard and out of a trap door.

Lift off!

It's dangerous, but Wheeler rides the lift shaft all the way to the top. Then he breaks through the glass dome and jumps down into the jungle. But the scientists aren't ready to give up the search yet!

DID YOU KNOW: ONE OF THE SCIENTISTS IS ARMED WITH A SPECIAL GUN THAT FIRES A HYPODERMIC SYRINGE DART. THIS WILL KNOCK WHEELER OUT IF IT HITS HIM!

DECK DATA

- Wheeler plays two monsters in his Duel with Jaden.
- Both feature primates but...
- Berserk Gorilla is a Beast/Effect Type Monster.
- Acrobat Monkey is a Machine Type Monster.

WHEELER'S CARDS

BERSERK GORILLA

- He's a real Grrr-illa of a monster on the offensive with his humungous 2000 ATK points and fire breath attack!
- But it's another story when the angry ape's defending. Not only is he a lot weaker – just 1000 DEF points – but if he's face-up in Defence Position then he's automatically destroyed!
- In this issue's Duel, Berserk Gorilla's jet of flame proves too hot for Elemental Hero Sparkman to handle!

When Elemental Hero Flame Wingman beats Berserk Gorilla, his ATK Points are dealt as damage to Wheeler!

YOUR CARD

ACROBAT MONKEY

This cheeky monkey can deliver quite a punch. His acrobatic attack is called Somersault Smash!

YOUR CARD

ACROBAT MONKEY

- It's a robot monkey that was developed with cutting-edge technology!
- Its stats are respectable – 1000 ATK and 1800 DEF points.
- But when it's used in combination with certain Spell Cards (see below), it turns into a real King Kong of a monkey monster!

WILD NATURE'S RELEASE

- When Spell Card, DNA Surgery is played, Acrobat Monkey goes ape – literally! It turns into a Beast Type Monster.
- Now it's a beast, it can be affected by Spell Card, Wild Nature's Release. This increases Acrobat Monkey's ATK by the value of its DEF points. And 2800 ATK points is a pretty scary total!

This spell's strictly a one hit wonder! At the end of the turn the monster affected by it gets destroyed!

YOUR CARD

WHEELER'S HEADGEAR

Jaden discovers that he can talk to the animals. Is he gifted or is it just weird science!

- Wheeler is not just a smart monkey – he's a hi-tech one too! He's equipped with a super-advanced helmet that, "reads his mind and talks for him!" It gives Jaden and his friends a fright when he hears Wheeler talk the first time!

- But the helmet can do more than just talk – it also helps Wheeler play. The special head-up visor display shows him all the Duel info he needs, using monkey-friendly graphics. Top banana!

- Of course, unlike bananas, hi-tech Duel helmets don't grow on trees – somebody has to invent them. Wheeler's was developed in the super-secret laboratory that he escaped from. The back pack links into the equipment that the scientists used to monitor him in the lab.

- When the monkey's freed we see his Duel-kit close-up. Jaden's still communicating with Wheeler even though, as Syrus says, "Uh Jaden, his talky helmet is gone, ya know!"

DID YOU KNOW?
WHEN WHEELER LOSES A SAD MONKEY FACE COMES UP ON HIS VISOR DISPLAY!

WHO'S WHO?

MINDY AND JASMINE

Learn a lot more about these Obelisk Blue belles!

If Alexis is the queen of the Obelisk Blue Dorm then Jasmine and Mindy are its princesses. In this issue they really come into the spotlight and reveal some surprising secrets!

Jasmine and Mindy join Alexis in the search for Chazz. Turns out that for one of the girls it's not just about helping a fellow student!

Mindy drops a bombshell on the search party. She suggests that Chazz may have, "snuck out to get me flowers. My Chazzy's so romantic!"

Jasmine quizzes Mindy: "You like Chazz!? Last week it was Bastion. Who's next - little Syrus?"

Jasmine isn't impressed by Jaden's jokes: "You make puns now? And not even good ones?!"

MONKEY SCIENCE

Jaden and his mates are horrified to hear that, "back at the lab if (Wheeler) made a mistake, he'd be harshly punished." Jasmine thinks Wheeler: "deserves better than those needle-poking scientists". So after the Duel they manage to release him - with some help from a certain teacher!

"This duel is just the kind of field test we've been waiting for."

The scientists ignore Jaden: "Enough nonsense, out of the way"

Pharoah Attacks!

Banner says he's, "Just your average teacher, Duellist... animal lover."

DID YOU KNOW:
THE KIDS SAY THEY'LL EXPOSE THE WHEELER SECRET. BUT THE SCIENTIST TELLS JADEN, "YOU'RE JUST SOME KID WHO'S GOING TO BELIEVE YOU!"

ON THE RUN!

He's on the run, hiding his shame, hiding from his friends, hiding from his family. The question on everyone's lips is: where is Chazz?

Chazz decides to leave the Academy.
"You demote me, you laugh at me,
well that's it. I've had it."

Jaden realises, "if those (Obelisk Blue
students) were the only friends I had,
I'd prolly run away!"

Everyone looks for Chazz!

Fed up, Chazz boards his family boat
and thinks, "You haven't heard the
last of Chazz Princeton!"

MATCH UP!

Each of these girls was looking
for Chazz. Unjumble the letters
and match the correct name
and face. Bonus question:
which one calls Chazz, 'Chazzy'?

CLAWS FOR

Fishermen, beware the amikiri's razor-sharp pincers

If you can't catch any fish or if you get bitten by mosquitoes at night, you might have a pesky amikiri plaguing you!

A mikiri ('say ah-mee-kee-ree') are magical Japanese creatures that look like a mixture of a bird, a snake, and a lobster. They're one type of the Japanese spirits known as 'yokai'. Amikiri are so mysterious that little is known about them.

Seen at sea

You generally find amikiri in the sea (which accounts for the lobster claws) but they also have the special ability of moving on

land or even sailing through the air! Although they look a bit weird and rather frightening, amikiri are not really that scary. In fact, compared to a lot of other types of yokai, they're actually quite harmless - although they can be annoying!

Net losses

These lobster-like sprites have a few mischievous tricks up their sleeves. They like to use their pincers to cut through nets (their name

R ALARM!

comes from this practice). Usually they target fishing nets in the sea where they live and swim. Amikiri don't seem to like having these nets on their territory and will slice them into pieces with their sharp claws!

Once bitten!

It's not just fishermen who suffer at the hands of these weird aquatic creatures. In summer, when the doors between the spirit realm and our world are open, amikiri float into peoples homes and cause damage. They'll cut just about any nets they can find - not good news if you're trying to get a good night's sleep inside your protective mosquito net! The amikiri will slice these open leaving you to get badly bitten by pesky insects. And amikiri will snip your clothes line too!

Believe in youkai!

Amikiri are just one of many amazing types of youkai in Japanese folklore. They often have supernatural powers which make them dangerous or, like amikiri, a nuisance. And they usually have strange reasons for the way they behave which people can't figure out. Youkai help make the world a mysterious, uncertain place!

The amikiri isn't the only mythical creature with pincers. Check out these crab legends!

Amphrite

Amphrite was an ancient Greek sea-goddess. Like most Greek gods she looks a lot like a human - except for the weird twist of having crab-like pincers coming from the sides of her head! This goddess was famous for being the wife of the sea god Poseidon. Legend has it that at first she fled from his advances to the farthest end of the sea, but she was found by a dolphin which Poseidon rewarded by placing it among the stars.

Zipacna

This giant was a villain from ancient Mayan mythology. He was so arrogant that the gods sent two boy heroes to destroy him. Because Zipacna was very strong, the boys decided to use trickery. They hollowed out a mountain and placed a big artificial crab nest to it. Zipacna, pressed looking for food, saw the crab and hungrily approached the bait. As he did so the boys collapsed the mountain onto him. Zipacna was caught in the trap and killed.

DRAW ELEMENTAL HERO BUBBLEMAN

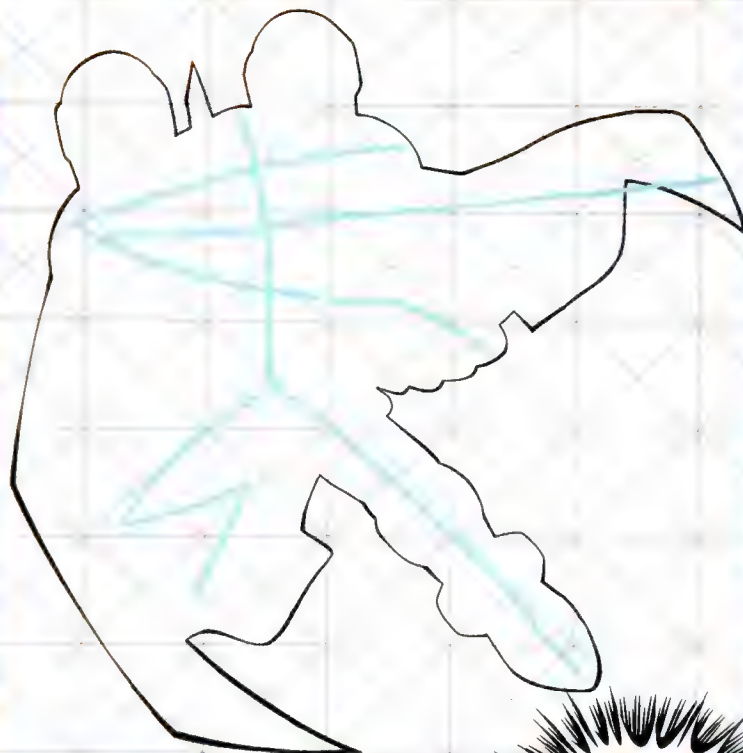

With this brilliant awesome art class you get to draw both an Elemental Hero and his bubble gun!

From the top of his head to the tip of his cloak, Elemental Hero Bubbleman is six heads high. If you remember that every time you draw him in this pose he'll always look perfect.

1 Elemental Hero Bubbleman is in quite a tricky pose, because he's firing his bubble gun. Use the blue line of action to help you get it just right. Once you've got it as you want it, carefully copy the outline of Elemental Hero Bubbleman. Notice that there is also an outline for his cloak and for his legs. It's important to draw both of these in now as it will help later when you add in the detail.

SCRIBBLE...
SCRATCH...
SCRIBBLE...

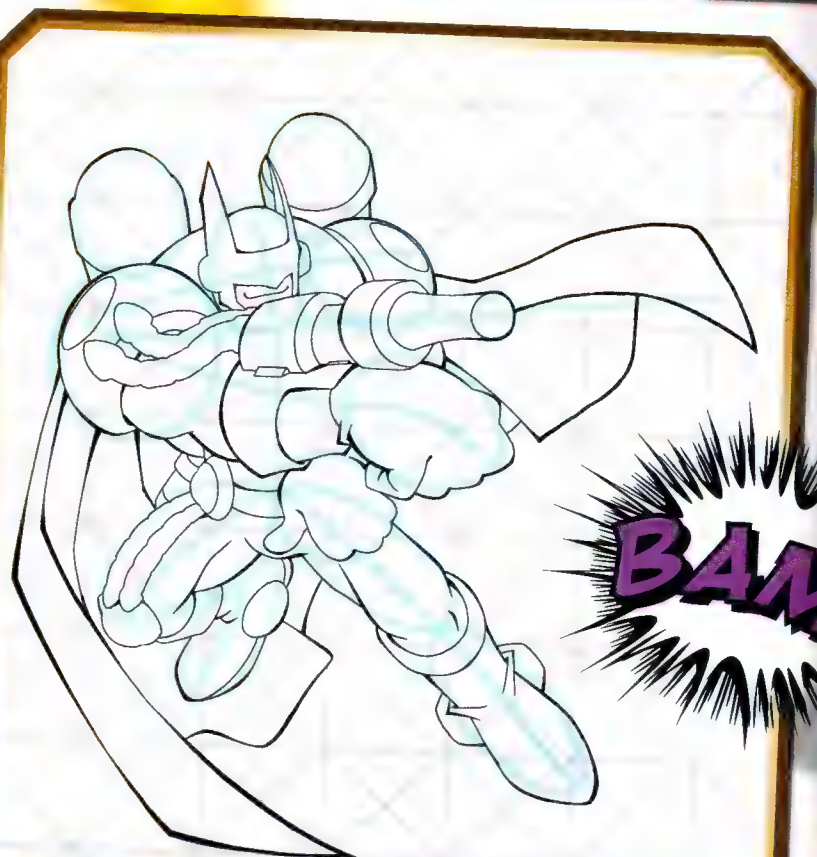

BAM!

2 In this step you'll be adding in bubble shapes. These shapes help you break down complicated figures into easy-to-draw shapes. As you become more confident with your drawing skills, you'll want to remove the grid. The sausage and circle shapes you use here will help you at that time. You can practise this even when you're not drawing – look at other people you see and try describing them in simple shapes, or look in the mirror and practise on yourself! Elemental Hero Bubbleman has lots of circle shapes on his upper body and even his head is quite round. But his legs are more sausage shaped. Use this diagram to help you.

3 Adding in the detail of your character is where you can really start having fun! This character has a cape on – adding in the lines in the right places will make it look like it is blowing in the wind. Copy in some of the lines on his legs and arms like we've done and then take your focus to his bubble gun. This is made up of cylinder shapes. Look at Elemental Hero Bubbleman's legs and draw in the lines that show the way they bend. If you look you'll see that they have a lot of muscles! Carefully copy in these lines.

SKETCH...

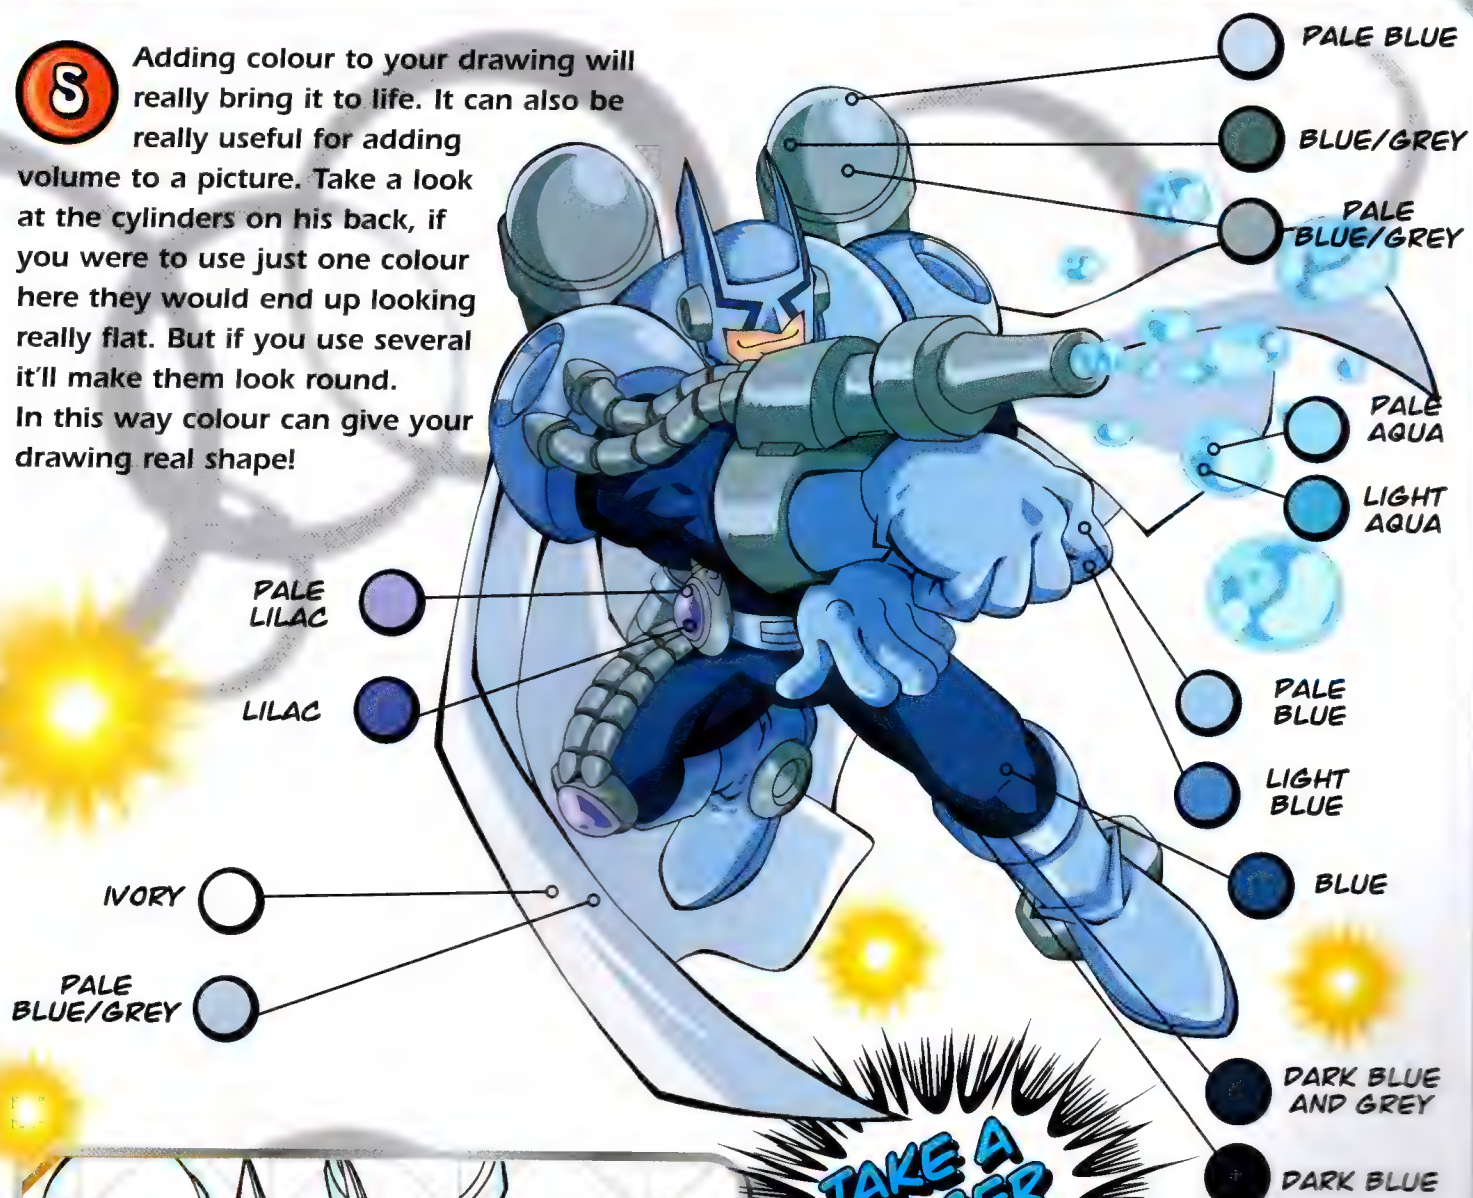

4 Use this step to finish off all the tiny details, making sure everything is as precise as possible. If you have any doubts about the bubble gun, you can use the close-up picture on the following page to help you. Once you're happy, use a fine liner pen to go over the character. When the ink has dried, rub out all the pencil lines and the grid!

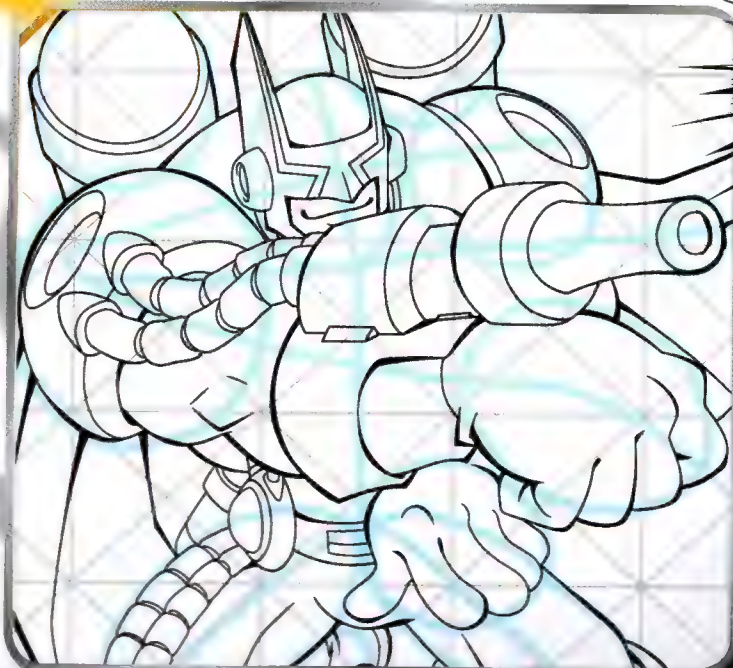

TOP TIP
KEEP ALL THE ROUGH VERSIONS OF YOUR DRAWINGS SO YOU CAN SEE HOW MUCH YOU'VE IMPROVED!

Adding colour to your drawing will really bring it to life. It can also be really useful for adding volume to a picture. Take a look at the cylinders on his back, if you were to use just one colour here they would end up looking really flat. But if you use several it'll make them look round. In this way colour can give your drawing real shape!

TAKE A CLOSER LOOK

The bubble gun is an essential bit of kit for Elemental Hero Bubbleman, notice the way it is strapped onto his arm and use this close up to help you get its detail just right.
